DETAILED ACTION

1. This Action is in response to Applicant's amendment filed on 03/06/2009. Claims 15-28 are still pending in the present application. This Action is made **FINAL**.

Claim Rejections - 35 U.S.C 101 AND 112

2. Claim 27, as amended is rejected under 35 U.S.C. 101 because the claimed invention is not supported by either a process asserted utility or a well established utility.

Claim 27 attempts to claim a process without setting forth any steps involved in the process, which raises an issue of indefiniteness.

Claim 27, as amended is also rejected under 35 U.S.C. 112, first paragraph. Specifically, since the claimed invention is not supported by either a process asserted utility or a well established utility for the reasons set forth above, one skilled in the art clearly would not know how to use the claimed invention.

Claim Rejections - 35 USC § 112

3. Claim 26 is rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the enablement requirement. The claim(s) contains subject matter which was not described in the specification in such a way as to enable one skilled in the art to which it pertains, or with which it is most nearly connected, to make and/or use the invention.

Claim 26 claims a system for planning a telecommunication network for radio apparatuses, however, there is not enough description in the specification to enable a person skilled in the art to develop the system of claim 26 without undue experimentation.

Allowable Subject Matter

4. Claims 15-25 and 28 are allowed.
